

CITY ITEMS.

BULL'S HEAD.—For a wonder, the market for beef cattle has held steady the second day for quite as good as it was the first. Drovers thought it could not be worse. We think that it is surprisingly good, considering the number of weeks, excepting one, that the weekly supply has exceeded 3,000 head a week. The report of the market shows a decline, but not a very serious one, in view of the large supply. It is estimated that "pauls" has not yet found its way into the live-stock market. The last of the bullocks offered of 4,136 head, less 61 head sent to Poughkeepsie, were in a fair way to be sold at Forty-four street yesterday before night. In fact, the yards were pretty well cleared at 3 o'clock.

Mr. Lord's fourth lecture on "Representative Women" will be given at Clinton Hall this evening. Subject: "Madame de Maintenon—the Woman of Society."

REHEARSAL AT THE MUSEUM.—Mrs. J. J. Prior, the estimable leading lady at Barnum's Museum, has her benefit this afternoon and evening, when the "Rosa Elmore" will be given, Mrs. P. being the hero in the first and the heroine in the last. Mrs. Prior deserves well of the patrons of the Museum, and will doubtless have a successful evening.

THE WATER GAS.—Considerable excitement has been raised in Philadelphia by the appearance of a report in *The Scientific American* of this city, made by Chas. A. Seely, chemist, adverse to Sanders' Water Gas. The Philadelphia papers are out in defense of the Philadelphia invention; they state that Mr. Seely gave out before seeing the Water Gas apparatus that he was going to make a sensation article, and that he had a confidential conference with at least one of the officials of the City Gas Works. Mr. Place, the engineer in charge of the Water-Gas works, at the Girard House, says that he was engaged in a series of experiments which he could not interrupt, to allow Mr. Seely to take charge of the works for twenty-four hours, as he desired. The Water-Gas Company offer to supply the Philadelphia City Works with gas, at 75 cents per thousand feet.

FOR THE WEST.—An exceedingly interesting company of children left the city for the West yesterday afternoon, under the charge of Mr. H. Friedman, of the Children's Aid Society. A large proportion of them were orphans, and many of them had no recollection of having ever experienced the comforts of a home. One group attracted much notice. A poor widow, with five young children nearly dressed, and all adopted into the family of the Children's Aid Society, departed the pious of the scene. All were happy, and seemed to forget their past miseries and privations in the enjoyment of the present.

POLICE COMMISSIONERS.—At the meeting of the Board yesterday reports were received from the Sanitary Squad, setting forth that the buildings Nos. 96 Park street and 19 North street are in a dangerous condition, and liable to fall at any moment, the walls being cracked and bulged out. Mrs. Elizabeth S. Sibley's stable, No. 174 Elm street, being in a dangerous condition was demolished yesterday morning by the Squad. The absurd report that the Commissioners had issued an order compelling policemen to wear 300 patent leather top-boots is untrue.

A PETTY SWINDLER.—A day or two since, John Farrell, aged about 25 years, met a lad named John Leonard in the street, and offered to sell him a gold watch for \$10. The boy had but 50 cents, and Farrell finally agreed to accept that sum. He then pretended to wrap the watch in a paper, and finally handed the package to the boy, and hurried away. Leonard opened the paper, and found it to contain only a smooth, round stone. Farrell was arrested yesterday, and in his possession was found two or three dumb watches, and several stones, with which to perpetrate his swindling tricks. Justice Brennan committed the prisoner to answer.

CONTRACTS.—The Croton Board yesterday awarded the contract for regulating and paving Ninth avenue, from its junction with Broadway to Eighty-sixth street, to Andrew J. Hackley, at \$62,092 25. Time two years. Also, for constructing a trunk sewer in East Eighty-fifth street, to Charles Stone, at \$1,421 80. Time thirty days.

A RUNNER CASE.—On Monday Mrs. Agnes Eppee, accompanied by four children and her sister, arrived in this city by the New-Haven Railroad. She was accompanied at the depot in Fourth avenue by two young women, who promised to escort her to the hotel No. 37 Warren street, where she proposed to stop. On the way down in the cars the runners informed Mrs. Eppee that this hotel had recently been shut up, and advised her to go to another hotel, which they showed her. They took her to a hotel, kept by Frederick Heath, No. 42 Cedar street. She was furnished with rooms on the second floor, but after remaining a few hours, became alarmed at the surroundings of the place. Mough and suspicious looking fellows came into her room and asked her if she had any money, to which she replied that she had not.

The woman and children became much alarmed, and finally Mrs. Eppee decided upon leaving, and went down stairs to the front door, where she found locked. She cried sufficiently loud to make herself heard outside, and the door was finally opened. She then got a policeman, returned to the hotel, got her baggage and children, and departed. In her reticule, however, she had left \$75, which was now gone. From the description given, the police arrested Jacob Otto, who was then identified and taken before the Tombs Police Court. The other runner had taken the ferry-boat to Jersey City, as is customary with the swindlers when trouble looms up. On Tuesday, ex-Recorder Smith appeared before Justice Welsh in behalf of the runner, and after a long examination, the Justice was compelled to discharge him, because the complainant could not positively testify that she lost the money before entering Heath's place.

INDUSTRIAL CONGRESS.—About three dozen persons, constituting an Industrial Congress, assembled on Tuesday in the Metropolitan Hall, No. 38 Sixth avenue. They were warmly and comfortably seated. The prominent speaker at the evening session was Mrs. Romaine J. Rose, the accomplished advocate of women's rights. She was a spectator. The speakers and officers were generally intelligent, and not notorious. The Congress resolved that they should be abolished. The addresses that were made pictured a horrible state of affairs, the audience was technically impassioned, and the rhetoric of several of the speakers was highly impassioned, and elicited great applause, although it is probable that if any genuine son or daughter of toil had stayed away from the domestic rest and comfort which follows the day of honest work, however humble, and listened for edification, that son or daughter would have retired in confusion. It is, and generally has been, painful to observe the indifference of the working classes to their own terrible wrongs and sufferings. Their client omits of resolutions and speeches, and the steady indifference they carry to their factories and shops are not unusual to the best reasoning Congress. While such symptoms are manifest, little practical good can be hoped from its deliberations. Agitate! agitate! is a philosopher's cry, however, and while lights are cheap and words are plenty, we shall offer every quiet encouragement to movements like that at Metropolitan Hall.

THE CASE OF THE CITY CHAMBERLAIN.—The special committee of the Common Council appointed to investigate the action of Chamberlain Platt upon the city deposits, met for the third time on Wednesday at 12

o'clock. A subpoena having been served upon Mr. Platt by the Committee, his counsel defended his non-appearance, on the ground that by the statute of 1860, such process can only be served by a joint Committee of the Common Council, with the added authority of a City Judge. Affidavits calling for the issue of an attachment were therefore laid before Judge Ingraham. He promised a decision to-day, and the Committee accordingly adjourned over to Thursday, at noon.

CHURCH OF THE PURITANS. The statement in an evening paper that the Society of the Church of the Puritans held a meeting last Saturday evening, in reference to the British Aid Mission, and that "as some doubt existed as to the success of the pastor's visit to England, a motion to postpone the consideration of the matter indefinitely was adopted," is incorrect. The facts in the case are these: On Thursday evening the 17th May, a motion to adjourn for six months was adopted. At that time the subject of the British Aid Mission had been under discussion for seven evenings.

At the time to which the meeting stood adjourned approached, several of the members of the Society on both sides of the question were applied to by Mr. T. S. Berry, to avoid the further discussion of the question, and to agree to sustain him in moving an adjournment without day. In this way a mutual arrangement was made, that, when the Society should meet as above, Mr. Berry should move said adjournment without day, and both sides would vote for the motion. Dr. Cheever's success or failure was not mentioned, nor did the British Aid Mission itself enter into the terms of the agreement.

Accordingly, the meeting was held on Saturday evening, the lecture-room of the church being filled. The motion was carried unanimously, and the meeting declared adjourned without day.

SIXTH DISTRICT NATIONAL UNION CONVENTION.—The above Convention met on Monday evening at Union Hall, corner of Sixth street and Eighth avenue, to nominate six Councilmen for that district. Lemuel W. Parkes of the Ninth Ward was chosen Chairman, and John Thomas Phillips of the Sixth Ward Secretary. A Committee on Credentials reported the following: Ninth Ward—Lemuel W. Parkes, Abraham Springsteen, Henry W. Boers, Israel Hughes, Daniel W. Stevenson; Tenth Ward—W. A. Gues, A. Hathaway, Wm. H. Draper, Nathan Lobdell, Edwin R. Willbur; Eleventh Ward—Samuel Moore, John Thomas Phillips, William B. Parry, Joseph Meeks, William Murray; Twelfth Ward—H. A. T. Granberry, William E. Frost, A. A. Valentine, William Richardson, W. A. Ketchum. The Convention proceeded to ballot, and the following gentlemen were put in nomination: Ninth Ward, Charles J. Holder; Eleventh Ward, Edwin R. Willbur; Twelfth Ward, John C. Ham and Wm. C. Brown; Eighteenth Ward, H. A. T. Granberry and Wm. E. Frost.

AQUATIC GRAND ROWING CONTEST.—FAT AGT. DECKER. The excitement attending the late ten-mile pull between Joshua Ward, of Newburgh, and Wm. Bunker, of Poughkeepsie, which terminated in a complete victory for the "champion oarsman," has hardly subsided, ere the attention of the lovers of rowing pastime is centered upon the trial between the above famous rowers. The race will come off on Thursday, the 23d inst., between the hours of 1 and 3 o'clock p. m. The distance will be five miles, and the amount rowed for, a purse of \$500, or \$250 a side. The boats will start from a stake-boat in front of Burnham's "Cove House," which is near the station of the Jersey City Yacht Club, and at the foot of Van Vorst street, Jersey City. Both men will row in single-shell boats, of the latest style. Pay will row in the Thomas Jefferson, a boat of fine model and finish, built by James Mackery, of Brooklyn. Decker will pull in the Mary Bell Roberts, which is also a boat of excellent model, and a good specimen of the skill of her builder, George C. Newman, of Harlem.

A NOBLE ENTERPRISE.—The New-York Conference of the City Mission in this City, under the auspices of the New-York Conference of the M. E. Church, though of recent origin, has converts already numbered by hundreds; and among them are some marked cases of reform. Two new churches are being erected, and 1,000 children are under its care. To aid its funds, this Society will give a grand Juvenile Concert in the Academy of Music this evening. Professor L. A. Benjamin will have charge of the 1,000 children who are to sing. The singers are selected from the various M. E. Sunday-Schools in the City.

COMMISSIONERS OF EMIGRATION.—This Board met, as usual, yesterday afternoon, at Castle Garden, President Verplanck in the chair.

A communication was received from Captain Nelson, of the ship Harvey Birch, asking to be released from a fine, imposed for allowing passengers on his vessel, who were not provided with certificates of health. The document was favorably received.

On motion, the Board appropriated \$500 as salary to Dr. Hadyman, the Resident Physician of the City Prison, for service in examining emigrants, who brought up to the Tombs for inspection. The same amount was given to Dr. Corli, the late Physician of the Prison.

From the weekly statement, it appears that 93,392 emigrants have arrived at this port since the first of the year, being an increase of 22,500 over the corresponding period of last year. Number of arrivals last week, 3,329. Number of inmates on Ward's Island, 736. Aggregate receipts, \$248,015 93. Disbursements, \$255,187 54. Balance in bank, \$12,828 39.

THE TYN-HORN NUISANCE.
To the Editor of THE N. Y. Tribune.
SIR: Last night about this time an epidemic not described by any scientific authority broke out in the streets of New-York and Brooklyn, and spread with fearful rapidity, and in a few minutes the city was filled with the most horrible and disgusting odors. The odor was so strong that it was impossible to breathe, and the people were driven from their homes, and sought refuge in the open air. The odor was so strong that it was impossible to breathe, and the people were driven from their homes, and sought refuge in the open air.

MINISTERS.—Partial returns from this State indicate that Lincoln will have about 10,000 majority.

WASHINGTON TRAILING.
To the Editor of THE N. Y. Tribune.
SIR: It is proposed by a few admirers of the late Washington Irving, to make a pilgrimage to his tomb, on the 1st of December next (the anniversary of his birth). Those who may favor the movement, and who wish to render homage to the memory of the author and the man, are requested to communicate with "Knickerbocker," Box No. 242 City Post-Office.

CHARITY.—I acknowledge the receipt of the following names, sent me for an "English Family in distress."

MINOR POLICE ITEMS.—Michael McCarty, a carman who had been laid to jail, for a charge of highway robbery, having forfeited his bail by not appearing for trial, was re-arrested on Tuesday last, and taken to the Tombs. A young man named James Wilson was arrested on Tuesday night, on suspicion of having stolen a coat which he had in his possession. Being taken before Justice Kelly, he was discharged for lack of evidence. It subsequently appeared that the coat had been stolen from the chamberlain of C. H. Hertz, and the Harbor Police are again in search of him. He is pocketed with \$45. James Canavan was subsequently arrested by the Fifth Ward Police on suspicion, and the money being found on him, he was released.
